

Day 11: BreakFast

In this little assignment you are given a string of space separated numbers, and have to return the highest and lowest number.

Examples

Input => "1 2 3 4 5"

Output => "5 1"

Input => "1 9 3 4 -5"

Output => "9 -5"

Input => "1 2 -3 4 5"

Output => "5 -3"

semicolon
